Location: Dhaka, Bangladesh | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Developer with 3+ years of experience delivering responsive, SEO-friendly web applications using React, Next.js, TypeScript, and Tailwind CSS. Proven ability to improve performance, accessibility, and user experience while collaborating with cross-functional teams.

TECHNICAL SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js

Tools & Platforms: Tailwind CSS, Responsive Design, Accessibility, SEO, Node.js, Express.js, REST APIs, Firebase, MongoDB, Git, Postman, Google Analytics, Cloudinary, GTmetrix, Meta Pixel, Google AI Studio, Prisma DB, Codex

PROFESSIONAL EXPERIENCE

Software Developer – [Panorama Management Advisory Services](#) (Hybrid), Dhaka, Bangladesh

Oct 2024 – Mar 2026

- Built responsive, high-performing front-end features from the ground up using React.js, Next.js, and Tailwind CSS.
- Architected and maintained the [Panorama Assessment Tool](#), focusing heavily on smooth user workflows and overall product usability.
- Collaborated directly with backend developers to define REST APIs, support server-side integrations, and actively monitor DevOps and backend deployment pipelines.
- Authored Product Requirements Documents (PRDs) and planned continuous development cycles.
- Co-developed AI-driven auditing tools capable of generating comprehensive, actionable company assessments and instant reports in just 1–2 hours.
- Designed and deployed automated internal and external workflows using n8n to successfully scale the operations of the Assessment Tool.
- Wrote robust test cases and managed the feature release timeline to ensure stable and reliable deployments.

Software Associate – Panorama Management Advisory Services, Dhaka, Bangladesh

Mar 2024 – Oct 2024

- Executed comprehensive manual QA testing and bug tracking for front-end features, reducing post-deployment defects by 30%.
- Created detailed Standard Operating Procedures (SOPs) and technical documentation to streamline daily development workflows and accelerate team onboarding.
- Monitored website performance and user behavior using GTmetrix and Google Analytics to guide data-driven UI improvements.

KEY PROJECTS

QUULIX – E-commerce solution [View website](#) [View repository](#)

Apr 2026 – Present

- Built a responsive e-commerce solution with product, cart, and checkout workflows.
- Improved conversion-focused UX using Next.js and SEO-friendly storefront design.

Plzwork – Developer and designer tool suite [View website](#) [View repository](#)

Mar 2025 - Present

- Built Plzwork as a collection of free and freemium tools for developers and designers.
- Created browser tools and CLI-friendly workflows with React and TypeScript.

GrafiXr – Digital agency portfolio platform [View website](#) [View repository](#)

Mar 2025 – Aug 2025

- Built a responsive agency website with Next.js, MongoDB, Cloudinary, and SEO optimization.
- Developed a dynamic admin panel for content and project management.

EDUCATION & CERTIFICATIONS
